ABOUT ME

Web developer with over 4 years of experience in creating applications using Vue, React, and TypeScript. Implemented chats, video conferencing, API integrations, and payment systems. Quickly learns new technologies, works well in a team and independently, and is always result-oriented.

PROFESSIONAL EXPERIENCE

Four
Web Developer
2021 - Present (over 3 years)

- Developed applications using Vue, Nuxt, React, Next, and TypeScript.
- Integrated payment systems (LiqPay, PayPal).
- Implemented Push notifications, chats, and video conferencing (Firebase, Agora).
- Customized admin panels based on Laravel.
- Worked with Google APIs:
  - Google Maps API – Displaying locations and search filters.
  - Google Calendar API – Calendar integrations into web applications.
  - YouTube API – Handling videos and displaying them on websites.

The Initial The Final
Web Developer
2020 - 2021 (9 months)

- Independently developed custom design websites.
- Created animations and interactive features for complex interfaces (GSAP).
